Clinical Science| Cardiac Surgery

Intra-operative Microaxial LVAD Support in High-Risk Mitral Valve Replacement

Alexis Edmonson MD, Tulane School of Medicine

Clinical Science| Cardiac Surgery

Impella 5.5 Placement in a Coronary Artery Bypass Patient with an Occluded Abdominal Aorta

Gina DeFelice MD, Tulane School of Medicine

Clinical Science| General Surgery

Which came first the Appendicitis or the Incarcerated Femoral Hernia; a Case Report on De Garengeot Hernia

Lauren Gonzalez MD, LSU Health - New Orleans

Education| General Surgery

Robotic Repair of Small Bowel Obstruction Secondary to Gallstone Ileus: A Rare Case

Nour Atassi DO, Willis Knighton Health

Clinical Science| General Surgery

Staged repair and primary closure of atraumatic right-sided diaphragmatic hernia causing small bowel obstruction

Jessica Fanelli, Tulane School of Medicine

Clinical Science| Gynecology Oncology and Plastic Surgery

A Multidisciplinary Approach by Gynecologic Oncology and Plastic Surgery for Complex Abdominal Wall Reconstruction Following Giant Ovarian Tumor Resection: A Case Report

Laurel Adams, LSU Health - New Orleans

Clinical Science| Pediatric Surgery

An Unusual Cause of Pneumoperitoneum in a Preterm Neonate

Stephen Vining MD, LSU Health - Shreveport

Clinical Science| Pediatric Surgery

Neonatal Nicolau Syndrome Following Intravenous Administration of Adult-Dosed Benzathine Benzylpenicillin: Case Report and Literature Review

Celestino Castanon MD, LSU Health - New Orleans

Basic/Transactional Science| Plastic & Maxillofacial Surgery

Morphological study of the angular branch of the thoracodorsal artery and lateral border of the scapula: Future implications for reconstructive surgery

Emma Lesser, Tulane School of Medicine

Clinical Science| Plastic & Maxillofacial Surgery

Management of Non-Operative Pressure Injuries-Highly Charged Fiber Dressing, pHA, and collaborative multidisciplinary wound care

John Paisley, Tulane School of Medicine

Clinical Science| Plastic & Maxillofacial Surgery

Recurrent Groin Lymphocele Following Bilateral Rectus Femoris Flap Reconstruction

Karina Butani, Tulane School of Medicine

Clinical Science| Plastic and Reconstructive Surgery

Definitive Surgical Management of Chronic Draining Acne Keloidalis Nuchae with Local Tissue Transfer Reconstruction: A Case Report

Alexis Reviere, LSU Health - New Orleans

Clinical Science| Thoracic Surgery

Thymic Epithelial Tumors: Where Classification Can Bemuddle Treatment

Leila Sabbagh MD, Tulane School of Medicine

Clinical Science| Transplantation Surgery

Phlegmasia Cerulea Dolens Secondary to Iliac Vein Compression from Post-Transplant Hematoma Despite Anticoagulation: A Case Report

Tiffany Lim, UQ Ochsner

Clinical Science| Trauma/Burn/Critical Care

Correcting Trauma Associated Coagulopathy With Prothrombin Complex Concentrate

Joshua Twito MD, LSU Health - Shreveport

Clinical Science| Trauma/Burn/Critical Care

The Use of Multiple Modalities for Limb Salvage Due to Severely Infected Wounds: A Case Study

Ross Jacobson, Tulane School of Medicine

Clinical Science

Novel Breast-Reduction Based Technique as a Curative Approach for Chronic Nonhealing & Fibrotic Bilateral Breast Wounds with Chronic Mastitis: A Case Report

Alexis Reviere, LSU Health - New Orleans
